A monthly newsletter equipping Christians to uphold the authority of the Bible from the very first verse

## Dealing with Skeptics

"They need to be shown that what we see in the world around us only makes sense in the light of God's Word."

**I**vividly remember arriving at a church in Melbourne, Australia, one Sunday night several years ago to preach on the relevance of creation. As the congregation and I entered the church, we were greeted by vocal anti-creationist skeptics, who were handing out flyers denouncing me as not being a real scientist.

Why? You see, I wasn't a true scientist because I believe the Bible and therefore teach that the earth is young and that its geology was shaped by the global Flood cataclysm.

When I stood to preach on "Creation and the scoffers" (from 2 Peter 3), the skeptics were sitting in the pews right in front of me! Undeterred, I went straight into the sermon, pointing out how we can identify who the scoffers are that the apostle Peter prophesied would come in the last days.

These scoffers would be those who would deliberately reject the geologic evidence that the world was destroyed and rebuilt by the global, mountain-covering Genesis Flood. They would instead believe that only present-day slow and gradual geologic processes could have shaped the earth and deposited the fossil-bearing rock layers over millions of years.

Of course, there were howls of protest from the skeptics when I identified these last-days scoffers as the uniformitarian (millions-of-years evolutionary) geologists of our day.

A lesson I had learned years before was powerfully reinforced that night. We had a question time after the church service.

continued on page 2...

Not surprisingly, these skeptics took this further opportunity to denounce me as a fraud. They pointed to supposed scientific evidence that “proved” it had taken millions of years for slow geologic processes to deposit the fossil-bearing rock layers.

I already knew, however, that no amount of counter evidence would convince them. Just as I had preached from 2 Peter 3, these scoffers were willingly ignorant of the overwhelming geologic evidence for the Flood. Their root problem was instead spiritual.

### CREATIONWISE

They did not want to “retain God in their knowledge,” so their “foolish” hearts were “darkened, professing themselves to be wise, they (had become) fools” (Romans 1: 18–32).

Thus the answer to their problem was not to try to somehow convince them with more scientific evidence. Instead, they needed

the Holy Spirit to convict and convince them of the gospel of the Lord Jesus Christ, our Creator and Redeemer. Only then would they accept the authority of God’s Word in every area it teaches on, including the earth’s origin and history.

All of us need to be constantly reminded that what we see and experience in the world around us only makes sense—and can only be truly understood—in the light of God’s Word. Man is finite, fallible, and ever learning. But God has always existed and is infinite and all-knowing. God’s Word, the Bible, is His eyewitness account of the

earth’s history. The geologists weren’t there when God judged the whole earth with the Flood.

Thus ultimately I know without a doubt that the global Flood cataclysm really did occur—because God’s Word says it did! Even if I couldn’t see any evidence, I would have to accept God’s Word for it! Of course, God has left us with so much stunning evidence for the Flood all around us, but it can only be seen through the “biblical glasses” we acquire when we totally accept the authority of God’s Word. ### The wait pays off

“Awesome! I have waited and waited for this museum. I was scared I might be disappointed (a 500-mile drive), but it was above and beyond anything I expected. Thank you!!”

—R.B., Iowa

“It was beyond what we expected! So wonderful to see God given the glory He deserves! Very educational also.

“The land, waterfalls & trails are beautiful! Everything was so well done & beautiful to see.

“Hope and pray this will open many unsaved eyes about God!”

—J.E., Pennsylvania

# Meet us at the museum next month

For teens and adults visiting the Creation Museum in January, we'll be hosting "early-bird" events (i.e., for those who can get here by 8:30 a.m.—well before the museum doors normally open at 10 a.m.). This includes watching our new planetarium show, participating in a drawing for a free DVD, and hearing AiG's Dr. David Menton present his fascinating and well-illustrated new talk *God's Girders: Bones of the Body*.

Also in January, children's programs will be held, including the "Dino-Mites" club (ages 5–9) and the "Creation Quest" club (ages 10 and up).

For museum members who will be in the area, we'll hold a special "Stargazer Night" on the evening of January 9. Participants will watch a show in our high-tech planetarium and then join Dr. Jason Lisle for an

outdoor telescope viewing (weather permitting). There will also be a drawing for a free autographed copy of AiG's newest book, *Darwin's Plantation* (co-authored by Ken Ham and Dr. Charles Ware—see p. 4).

And as usual, we will continue our extensive speaker series throughout the month, featuring guest lecturers in our theater (including Ken Ham). The overall theme of the talks in January is *The Six Literal Days of Creation*.

Find details to all of

these exciting January activities, and discover how you can become a museum member in time for the January 9 planetarium program, at [www.creationmuseum.org](http://www.creationmuseum.org).

## This month

*The Christmas Star* planetarium show—available ONLY in the annual Christmas Celebration event package for selected December dates—is sure to become a family tradition! Purchase in advance at (800)778-3390 or go to [www.creationmuseum.org](http://www.creationmuseum.org) for more info.

Two daytime shows will be available this month. You can experience *The Created Cosmos* and/or journey through the rings of Saturn (and other places in our solar system) in *Worlds of Creation*.

## Closed for the holidays

During the upcoming Christmas holidays, AiG staff will take a short break as we conclude an unusually busy year (especially with the opening of the Creation Museum), and staff will spend time with their families. See the schedule below.

We want to especially inform you that on December 22 and December 26, AiG's customer service line of (800) 778-3390 *will* be staffed. Therefore, donations (including stocks and bonds) can be handled by our friendly customer service staff during those days, from 9 a.m.–5 p.m., as well as through most of the end of the year.

Customer service lines will even be open on Monday, December 31

until 5 p.m. ET to receive year-end donations. And, of course, the website has a special donations page that's available anytime, day or night ([www.AnswersInGenesis.org/donate](http://www.AnswersInGenesis.org/donate))!

Here is the holiday schedule:

- Customer service phone lines will be closed on December 24, 25, 29, 30 (open on Saturday, December 22 and December 31, though, for calling in your end-of-year donations using a credit card.)
- The Creation Museum and offices will be closed December 24, 25, 31, and January 1.

Have a blessed Christmas and a wonderful new year to serve God!

### Are we there yet (again)?

"My family had been waiting for nearly two years to attend the Creation Museum. We were concerned our expectations had grown to a level that would almost guarantee disappointment.

"We were absolutely blown away. The exhibits were beyond anything we could have imagined, and its overall design and message were extraordinary.

"I am not usually that emotional, but I cried when I saw the [Garden of Eden room].

"We spent two days at the museum. On the way home the kids were already asking when we could return."

—S.C., Alabama

# Dismantling Darwin's Plantation

Dr. Charles Ware, co-author of AiG's new book *Darwin's Plantation*, is the president of a college. As an African American, he has experienced first-hand the racist fruits of the worldview popularized by Charles Darwin.

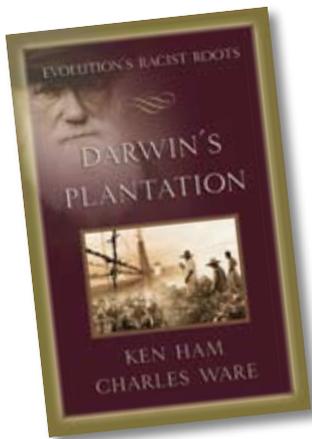

"Evolutionism and racism were both around before Darwin, but," says Ware, "it was Darwin's book *On the Origin of Species* that propagated and, in the minds of millions, justified the racist attitudes and actions that have resulted in so many

atrocities since the mid-1800s."

Ken Ham agrees. In *Darwin's Plantation*, he and Dr. Ware combine actual events and Scripture. They teach that, until Christians understand the scientific and spiritual truth that all men are actually "one blood" (of the same, original parents—Adam and Eve as described in Genesis 3), they will continue to buy into Charles Darwin's idea that there are lower forms of man and higher forms of man. And it is that mindset which has proven so dangerous.

The implications of Darwin's ideas have been understood and played out to their logical conclusion by Karl Marx, Margaret Sanger, Adolf Hitler, and many others. <sup>11</sup>

*Darwin's Plantation* is a fresh approach, written by the powerful team of Ham and Ware. Join with us in praying that its message will significantly affect the hearts of its readers! (see page 7)

## creationnews

AiG can assist you, your family, and church to stay up-to-date on the latest alleged "apemen" claims, the reason for the banning of creationism in Christian schools in one European nation, and other evolution-related news.

Especially with its regular feature on weekends called "News to Note," AiG has become well known for offering timely analysis on news stories that seek to promote evolutionary beliefs and undermine Genesis.

Remember to bookmark [www.AnswersInGenesis.org](http://www.AnswersInGenesis.org) on your computer. <sup>11</sup>

The Creation Museum is designed to do what it does do ...

But it wasn't designed to do this!  
AiG needs your end-of-the-year support.

## Victim of its own success?

Many see the strong Creation Museum attendance as a sign that AiG doesn't need donations. The museum, however, is only one part of the larger AiG outreach ministry. In fact, the museum itself still needs donations to support continued enhancements,

new exhibits, repairs, and maintenance.

Please prayerfully consider making a year-end gift to help keep the museum and AiG on track. See the envelope stapled inside this newsletter, or call—with your credit card handy—(800) 778-3390. Thank you. <sup>11</sup>

## prayerpoints

Please pray:

- that as we end the year, donations will be strong to this non-profit ministry (in particular, that AiG supporters will give to the core ministries like the website, radio program, international outreach, etc. so that they can continue uninterrupted).
- that as thousands of museum visitors attend our special Christmas programs inside the museum, non-Christians will receive the Lord.

## Building Blocks in Life Science BOOK

**NEW!**

**DR. GARY PARKER •** This book is the first in a new series of studies from the Institute for Creation Research. Targeted at youth ages 12 and up, this book by former evolutionary biologist Gary Parker looks at life sciences, digging into physical structures from early man to fossils. Discusses DNA, the artistic skills of Neanderthal Man, and much more. Parker uses his popular

teaching skills to focus on topics such as the chemical reaction between acids and bases, then zooms back out for the big picture: scriptural evidence that God created all. By integrating his thorough knowledge of how the human body works with man’s natural surroundings, Parker presents both a physiological and philosophical picture of our purpose on this planet. # No mystery about this Riddle

A highly popular AiG speaker, Mike Riddle speaks at scores of teaching conferences each year. Often accompanied by his delightful wife Lesley, he travels the country speaking on relevant-to-the-day topics such as cloning, stem cells, the fossil record, the origin of life, and the age of the earth—yet at a level that ages

12 and up will understand.

Mike—a former world-class decathlete (along with Olympic champion Bruce Jenner in the ‘70s)—holds a degree in mathematics and a graduate degree in education. Engaging as a speaker, Mike has been heavily involved in creation ministry for more than twenty years and has gained such a good reputation as a speaker that he is often a keynoter at many meetings (including various homeschool conferences).

Mike’s mastery of a broad range of creation topics yields all kinds of wonderful testimonies from those attending his engagements. Here is an example from a recent conference.

A couple from our Sunday school class attended both of Mike Riddle’s talks. They are the parents of two boys; the oldest just started kindergarten at a Christian school this fall.

They recently shared how in their son’s first week of school, he is already learning about creation—and how the whole message of creation is now very important to them. They are both longtime Christians, but had tended to view the creation message as divisive, not critical, and not a salvation issue. They have now changed their minds!—T.C., Arizona

If you would like to discuss the possibilities of hosting Mike Riddle or any other AiG speaker, call us at 800-350-3232 ext. 403.

Expose your church or group to the dynamic teaching ministry of Mike Riddle.

## Wowed

“I’ve already ‘devoured’ two of Mike’s DVDs. Wow!! Never have I seen such a logical, critical, coherent defense of the faith. I will be passing them on to a pastor and another to an uncle in Colorado (a geologist).”

# Ways to leave a legacy

**Y**ou might want to learn of some important ways in which you can support this creation/gospel ministry and also leave a legacy of Christian stewardship that will be honoring to the Lord:

- Give cash as a year-end donation to the ministry (see p. 4 for background to our current need)
- Give appreciated securities
- Make a charitable IRA rollover gift (by December 31, 2007, if you qualify)
- Include Answers in Genesis in your will or trust
- Name AiG as a beneficiary of

your IRA or other tax-deferred retirement plan assets

- Consider a charitable gift annuity
- Establish a charitable remainder trust (annuity trust or unitrust)
- Deed a remainder interest in real estate to Answers in Genesis
- Purchase or give an existing life insurance policy naming AiG as the beneficiary
- Remember deceased loved ones with memorial gifts to AiG

For more information, call AiG's John Pence at (800) 350-3232, ext. 483, or go to [www.genesisgift.org](http://www.genesisgift.org). 

Please remember AiG in your will or trust!

## Taking stock in stewardship

Stock is one of the easiest and most practical gifts to give Answers in Genesis. By giving stock, you will receive an income-tax deduction for the full market value of the stock and completely avoid any capital gains tax. And, you will be honoring the Lord through good Christian stewardship.

If you would like more information on stock gifts or other useful planned giving strategies, please call John Pence at (800) 350-3232, ext. 483.

## Spreading

“Thank you for the priceless information and radio tidbits on tough questions.

“Your radio shows encouraged me enough to find your site and get the link to your free booklets to send to my friend and for myself to read!

“What an incredible store of information! I will be spreading this new information everywhere I go!!!”

—Jeremy, Washington

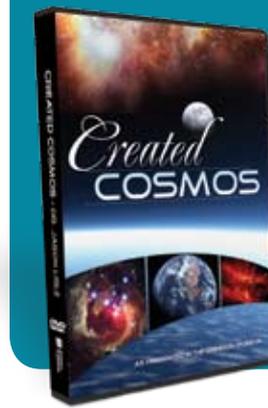

Answers Update is published monthly at no charge by Answers in Genesis, a non-profit, tax-exempt 501(c)(3) evangelistic organization.

**WHO ARE WE?** AiG is the world's largest apologetics ministry. We seek to equip the church to uphold the authority and accuracy of the Bible from the very first verse, thereby enabling it to more effectively present the gospel in our increasingly secular, evolutionary society.

didyouknow?

“Darwinian evolution is inherently a racist philosophy.”

## Darwin—a racist!

**D**id you know that evolutionists rarely discuss Charles Darwin's racist ideas?

Darwin stated that certain races were more primitive or “apelike” than others. This “scientific” belief has led to many racist attitudes toward certain people groups over the years.

It has been said that Darwin's book *On the Origin of Species* (1859) is second only to the Bible in influencing the way people think about life. But do you know the full title of Darwin's book? It's *On the Origin of Species by Means of Natural Selection or the Preservation of Favoured Races in the Struggle for Life* (emphasis ours). Darwin later expanded on his “races” ideas in the book *The Descent of Man*.

Most people aren't aware that evolution, as Dr. Charles Ware and I share in our new book *Darwin's*

*Plantation*, is inherently a racist philosophy. Most evolutionists would like to hide this fact, but it's true nonetheless.

Still, there are some evolutionists who admit to their Darwinian-based beliefs about the races. In a book by a Canadian author entitled *Race, Evolution and Behavior*, this professor actually ranks the different people groups along an evolutionary scale, with blacks at the bottom and Asians at the top.

It is only the Bible that teaches the truth about humans: we are all one race, for we are all descendants of Adam (Acts 17:26 and Genesis 1). <sup>13</sup>
